Blast from the Past:

Prez Sez April 1999 *ENLIGHT'NER*

Car show time is just around the corner for our club! Many of us went to the very first of the season at Smitty's in Oak Harbor where 115 cars were on display. Lots of food and door prizes and really nice handmade car clocks for trophies.

Our brunch was well attended by both our club and the Whidbey Cruiser's club and as usual the Chief's club was great.

Our club is growing in leaps and bounds and we are

(Blast from the Past: continued)

almost past our all time high membership.

Don't miss the meetings, as soon Kevin will dazzle us with his quarterly report, which among other things, will tell you how many members we have, where they live, etc. Lots of overnight trips are in the works so watch your email and the newsletter for hotel names and phone numbers and get your reservations in.

These trips are always loads of fun and filled with things to do or nothing to do if that is your preference.

Be sure to pick up some club cards at the meetings.

There is a space for you to write your name and phone number so if you recruit a new member you'll get credit for it!

The days are getting longer and Daylight Savings Time is coming up soon. Does that mean this rain will stop and all the days will be sunny?

Jim and June had to hurry and get this issue out as they are leaving with the group on the Oregon Coast trip.

That sure will be a fun one (boo hoo I have to miss it) and I'm

hoping they all take lots of pictures to share with us.

Remember to get your yellow club shirts and to watch for car show work signup sheets at the meetings.

Also anyone have an idea of where to have our Christmas Party? We'd like to try somewhere different this year. Bring your ideas to the meetings.

Speaking of meetings, I'll see you there!

Until the next time..remember Save The Wave!

AUTObiography

Local people and the cars they love

Owner: Mike Yahns, Mount Vernon
Occupation: Retired
Car's make and model: 1975 Chevrolet Corvette Convertible

"I love my car because ..." I wanted a Corvette since I was 14 years old, and I ordered this Chevrolet Corvette Convertible new in January 1975. The car has 89,000-plus miles and is basically all original. It got new paint in 2013. The interior is black leather, and it has black vinyl bolt on the hardtop (one of only 279 so equipped). It was my daily driver until 1991, and has been pampered since, with cosmetic restoration and renewing A/C, cooling system, brakes, etc. I am having fun with a local club (Majestic Glass Corvette Club) and car shows. It is still fun taking it for a drive."

Corvette News:

Last month it was green, this month how about a Black Rose Metallic 2017 Grand Sport convertible!

Corvette Racing:

The Long Beach GTLM race was a Corvette 1-2 for most of the race's second half. Milner and Gavin appeared headed for their third straight victory to open the International Motor Sports Association (IMSA) season until Milner was hit from behind by Fred Makowiecki's Porsche entering the final turn with two minutes left in the race. Despite the contact, Milner recovered to finish second.

Corvette Racing was going for the 100th victory in program history. Starting fourth in class, Gavin had to pit 30 minutes into the race with a suspected left-front tire puncture. It changed the strategy of the race with Milner having to go 70 minutes on a tank of E20. He took the lead with 53 minutes remaining. The race's only full-course caution erased an 11-second lead over teammate Antonio Garcia in the No. 3 Chevrolet Corvette, which Jan Magnussen qualified and started from fifth.

The restart saw the two Corvettes nearly nose-to-tail for the better part of 20 minutes. Unfortunately Garcia's Corvette spun at Turn 4 with nine minutes left. He made it back to pit lane but the car couldn't be repaired. He and Magnussen finished ninth.

The race stayed green until the finish despite the incident in the final corner that knocked Milner from the lead. The No. 4 Corvette did win the Dekra Green Award, which goes to the GTLM car that best combines performance with efficiency.
